# Wellcare Medicare Advantage HMO

Health Maintenance Organization (HMO) –Traditional MA plan. All services must be provided within the Wellcare network unless an emergency or urgent need for care arises, or such service is not available in-network. Some services require prior authorization by Wellcare, or its designee.

Additional benefits may include:

- No or low monthly health plan premiums with predictable copays for in-network services
- Outpatient prescription drug coverage
- Routine dental, vision and hearing benefits
- Preventive care from participating Providers with no copayment

# Wellcare Medicare Advantage PPO

As an eligible Medicare provider, Wellcare reimburses you at 100% of the Medicare allowable rate for all plan-covered, medically necessary services for our PPO members – whether you are contracted with us or not.

## INCREASED FLEXIBILITY

- Referrals not required from primary care physician for specialist or hospital visits. However, using providers in Wellcare's network may cost less than choosing one that is out-of-network. In addition, the Wellcare Medicare Advantage PPO plan:

- Offers a simple copayment for doctor visits, hospital stays and many other healthcare services, making healthcare costs more predictable
- Gives members Medicare Parts A, B, and D coverage as well as vision, dental, and hearing benefits not covered by original Medicare
- Covers all original Medicare services and follows original Medicare's coverage rules
- Only covers medically necessary services rendered by providers who are eligible to participate in Medicare

    - Payments less any copays, coinsurance, or deductibles are considered payment in full
- Prohibited by federal law
  - Federal law bars Medicare providers and suppliers from billing an individual enrolled in the QMB program for Medicare Part A and Part B cost-sharing under any circumstances

# Balance Billing

Healthy Connections  
PRIME

- Steps to ensure compliance with QMB billing prohibitions:
  - Establish processes to routinely identify the QMB status of Medicare beneficiaries prior to billing for items and services
  - Ensure that a Member Acknowledgement Statement has been signed by both the provider and the Absolute Total Care member for non-covered services prior to rendering said service
  - If you have erroneously billed these members, recall the charges (including referrals to collection agencies) and refund the invalid payments

Effective October 1, 2023, NCH will manage prior authorization requests for Medical Oncology and Radiation Oncology treatments provided in an outpatient setting. Approvals issued by Wellcare before October 1, 2023, are effective until the authorization end date, but all prior authorization requests needed after October 1, 2023, must be submitted to NCH.

Prior authorization can be requested by:

## Chat

Faster than email and easier than phone calls, Chat is a convenient way to ask simple questions and receive real-time support. Providers now have the ability to use our Chat application instead of calling and speaking with agents. Here are some ways our Chat support can help you and your staff:

- Web support assistance
- Real-time claim adjustments

### Explore the benefits you will experience by using live Chat!

**Convenience** – Live Chat offers the convenience of getting help and answers without needing to have a phone call.

**Increase Efficiency** – If you ever have to wait for a Chat agent to respond, it's easy to carry on with your other tasks and responsibilities.

**Documentation of Interaction** – Chat logs provide transparency and proof of contact. When customers engage with customer support via phone, they don't typically receive a recording of the verbal conversation. Live Chat software gives you the option of printing a transcription of the conversation afterward.

# Availability and Accessibility

# Accessibility

Accessibility is defined as the extent to which a member can obtain available services as needed. Such services refer to both telephone access and ease of scheduling an appointment, if applicable.

Absolute Total Care monitors access to services by *performing access audits*, tracking applicable results of the Healthcare Effectiveness Data and Information Set (HEDIS)/Consumer Assessment of Health Plans Survey (CAHPS), analyzing member complaints regarding access, and reviewing telephone access.

Please educate your staff to answer auditor's questions to the best of their ability instead of transferring to voicemail or directing elsewhere.

# Availability

Availability is defined as the extent to which Absolute Total Care contracts with the appropriate type and number of practitioners and providers necessary to meet the needs of its members within defined geographical areas. Absolute Total Care has implemented several processes to monitor its network for sufficient numbers and types of practitioners who provide primary care, behavioral healthcare, and specialty care.

PCP availability is measured annually by Absolute Total Care. Member data regarding satisfaction with physician availability is collected annually by the Member Services Department. Results are reported and reviewed by the Quality Improvement Committee (QIC). The QIC, or designated subcommittee, will analyze the data and make recommendations to address deficiencies in the number, distribution, or type of practitioners available to the membership.

# Access Standards

All Providers must adhere to standards of timeliness for appointments and in-office waiting times. These standards take into consideration the immediacy of the Member's needs. Absolute Total Care and Wellcare will monitor Providers against the standards for each line of business to help Members obtain needed health services within acceptable appointment times, in-office waiting times, and after-hours standards. Providers not in compliance with these standards will be required to implement corrective actions.

## Clinical Policies

Clinical policies are one set of guidelines used to assist in administering health plan benefits, either by prior authorization or payment rules. They include, but are not limited to, policies relating to evolving medical technologies and procedures, as well as pharmacy policies.

## Payment Policies

Healthcare claims payment policies are guidelines used to assist in administering payment rules based on generally accepted principles of correct coding. They are used to help identify whether healthcare services are correctly coded for reimbursement. Each payment rule is sourced by a generally accepted coding principle.

All policies found in the Absolute Total Care Payment/Clinical Policy Manual apply with respect to Absolute Total Care members. Policies in the Absolute Total Care Payment/Clinical Policy Manual may have either an Absolute Total Care or a “Centene” heading.

# Claims Submission

Claims must be filed electronically or sent directly to our claims processing center. Claims mailed to the physical office address will be returned and will not be able to be processed.

For claims processing efficiency, Absolute Total Care encourages providers to submit claims electronically.

# Credentialing Rights

All practitioners requesting participation with ATC have the right to review information obtained by ATC to evaluate their credentialing and/or recredentialing application. This includes information obtained from any outside primary source. This does not allow a practitioner to review references, personal recommendations or other information that is peer review protected.

Should a practitioner believe any of the information used in the credentialing/rec credentialing process to be erroneous, or should any information gathered as part of the primary source verification process differ from that submitted by a practitioner, they have the right to correct any erroneous information submitted by another party.

To request release of such information, a written request must be submitted to the ATC Credentialing Department. Upon receipt of this information, the practitioner will have 14 days to provide a written explanation detailing the error or the difference in information to ATC. ATC's Credentialing Committee will then include this information as part of the credentialing/rec credentialing process.

# Cultural Competency Overview

Cultural competency within Absolute Total Care’s network is defined as, “A set of interpersonal skills that allow individuals to increase their understanding, appreciation; acceptance and respect for cultural differences; similarities within, among and between groups; and the sensitivity to know how these differences influence relationships with members.”

Absolute Total Care is committed to developing, strengthening and sustaining healthy PCP/member relationships. Members are entitled to dignified, appropriate and quality care. When healthcare services are delivered without regard for cultural differences, members are at risk for sub-optimal care. Members may be unable or unwilling to communicate their healthcare needs in an insensitive environment, reducing effectiveness of the entire healthcare process.

# Cultural Competency Overview

Network providers must ensure that:

- Members understand that they have access to medical interpreters, signers and teletypewriter (TTY) services to facilitate communication without cost to the member.
- Care is provided with consideration of the members' race/ethnicity and language and its impact/influence on the members' health or illness.
- Office staff that routinely comes in contact with members have access to and participate in cultural competency training and development.
- Office staff responsible for data collection make reasonable attempts to collect race and language specific member information. Staff also must explain race/ethnicity categories to a member so that the member is able to identify the race/ethnicity of themselves and/or their children.
- Treatment plans are developed, and clinical guidelines are followed with consideration of the members' race, country of origin, native language, social class, religion, mental or physical abilities, heritage, acculturation, age, gender, sexual orientation and other characteristics that may result in a different perspective or decision-making process
- Office sites have posted and printed materials in English, Spanish and all other prevalent non- English languages if required by SCDHHS.

Absolute Total Care is committed to helping providers develop a culturally competent practice. For information on Absolute Total Care's Cultural Competency Plan, please visit our website at [absolutetotalcare.com](http://absolutetotalcare.com). **TO: Providers**  
**SUBJECT: Prohibition on Balance Billing of Healthy Connections Prime Members**

---

#### **BALANCE BILLING IS PROHIBITED**

Balance billing is the practice in which providers bill dually eligible beneficiaries enrolled in the Qualified Medicare Beneficiary (QMB) program for Medicare cost-sharing. This population is exempt from paying any cost-sharing for deductibles, coinsurance and co-payments related to Medicare services and prescription drugs. Healthy Connections Prime Members are considered QMBs. Please be advised that it is **unlawful for providers to "balance bill" any patient who is a member of Healthy Connections Prime** for any covered services. Balance billing for Healthy Connections Prime members is billing the patients for the difference between what the Medicare-Medicaid plan (MMP) pays and the retail price you charge for your services. The provider must accept payment in full from the Medicare-Medicaid plan (MMP) and should not deny any services to members for non-payment. Providers who inappropriately balance bill Healthy Connections Prime members are subject to sanctions and/or termination of their MMP provider agreement.

#### **WHAT CAN BE BILLED TO MEMBERS?**

1. For non-covered items and services, providers must give members advance notice that such items or services will be non-covered and have a written agreement with the members for these non-covered items or services. If such notice is not given and the agreement is not in place, providers may not bill members for such items or services.
2. For certain Medicaid-only items and services (such as durable medical equipment and home health agency care), members can be billed the allowable Medicaid co-pays.

#### **ABOUT HEALTHY CONNECTIONS PRIME**

Healthy Connections Prime is a new option for South Carolina seniors 65 and older with Medicare and Healthy Connections Medicaid. It is part of a national initiative designed to integrate all the services of Medicare, Medicare Part D and Medicaid into a single set of benefits fully managed by an MMP. Visit the Provider page on the Healthy Connections Prime website (<http://www.scdhhs.gov/prime>) to learn more details about the program or email [PrimeProviders@scdhhs.gov](mailto:PrimeProviders@scdhhs.gov) with any questions.

## Prohibition on Billing Medicare-Medicaid Plan (MMP) Enrollees for Medicare Cost-Sharing

This communication serves as a reminder that for Wellcare Prime by Absolute Total Care Healthy Connections Prime members, providers **may not bill and/or collect** any Medicare cost-sharing amounts, including deductibles, coinsurance, and copayments that may be represented on the Explanation of Payment (EOP), as they are not the member's responsibility.

This practice, known as "balance billing", is prohibited by Federal Law and as stipulated under your Wellcare Prime/Healthy Connections Prime Provider Services Agreement. **Please be advised that it is unlawful for providers to "balance bill" any patient who is a member of Healthy Connections Prime for any covered services.**

If your patient presented the following Member ID Card, you provided services to Wellcare Prime (Healthy Connections Prime) MMP member:

### Wellcare Prime members can be billed for:

- Medicaid participation in cost of care amounts for long-term services and supports as determined by SCDHHS.
- Medicaid copay for Medicaid only covered Durable Medical Equipment (DME) items.

### How Wellcare Prime resolves balance billing issues with the provider:

- Wellcare Prime informs the provider that the member has been inappropriately balance billed and educates the provider on balance billing.
- If Wellcare Prime reimbursed the member for an inappropriately balance billed amount, the plan will notify the provider and request reimbursement be made to the plan.
- If after outreach and education efforts to the provider, Wellcare Prime identifies ongoing inappropriate balance billing activities, Wellcare Prime may take disciplinary action up to and including termination of the Provider Agreement.

For more information regarding balance billing please refer to the Wellcare Prime Provider Manual at [absolutetotalcare.com](http://absolutetotalcare.com). You can also refer to CMS' Balance Billing Prohibition Notice at this link (<https://msp.scdhhs.gov/SCDue2/press-release/prohibition-balance-billing-healthy-connections-prime-members-0>) on the Healthy Connections Prime website. If you have any questions, please contact Member Services at 1-855-735-4398.
